Master Mechanical Engineering, Energetics                                              Sep 2021 - Jun 2025

## SKILLS

| | |
|---|---|
| Soft Skills: | problem solving - Project management-Safety Compliance |
| Python: | Cleaned equipment logs using Pandas (Kaggle-certified). |
| Excel: | Automated failure tracking with pivot tables/VLOOKUP. |
| Power BI: | Built dashboards for sensor data (Google-certified) |

## INTERNSHIPS & PROJECTS

**INFORMATION INTERNSHIP | AIR ALGERIE "DMRA " | March 2024 – April 2024**
https://www.oualidmokhtari.com/projects/air-algerie-maintenance-internship
• Conducted hands-on observations across multiple workshops, learning workflow systems, safety protocols, and equipment operations and assisted in basic maintenance tasks, gaining familiarity with mechanical tools and workshop environments.

**INFORMATION INTERNSHIP | NAFTAL | March 2024 – April 2024**
https://www.oualidmokhtari.com/projects/naftal-fuel-quality-control-internship
• Shadowed technicians in fuel storage and transfer operations, following strict safety and operational guidelines. and observed machinery and process workflows, developing an understanding of industrial equipment and teamwork dynamics.

**Failure Risk Predictor | Kaggle** *python*
Built a basic regression model to flag abnormal machine vibrations.

## CERTIFICATE

**IBM Data Science 101 | Cognitive Class (2025)**
- Covered Python, Pandas, and data analysis for equipment diagnostics.                      Jun 2025

**Google Data Analytics | Coursera (2025)**
- Learned data cleaning, visualization, and Python for predictive maintenance.              Jun 2025

**Python for Data Science | Kaggle (2025)**
- Applied Pandas/NumPy to automate maintenance logs and failure prediction.                 Jun 2025
